Experience

Frontend Developer Internship | [View Internship](#) | [Github](#)

Jan 2024 - Current

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API request with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Projects

Summarist App | [View Project](#) | [Github](#)

- Created a fully responsive book library application with **Next JS. 14, Tailwind CSS, Firebase and Redux** state management.
- Created a fully responsive login & log out functionality with a guest login.
- Processed several API requests to dynamically represent data from a cloud server and represent it through skeleton loading states and dynamic routing.

Ricky & Morty Wiki | [View Project](#) | [Github](#)

- Fetched data from Rick & Morty Api to implement a filter system to sort character by Location, Episode, Gender, Species and More.
- Implemented pagination.
- Created fully responsive Rick & Morty Wiki using **React, JavaScript, HTML and CSS** best practices.

E-Commerce App | [View Project](#) | [Github](#)

- Built a dynamic **HTML, CSS, JavaScript and React** single page application into an interactive user interface that displays data about popular and recommended books.
- Implemented a filtering option for enhanced user experience, including cart functionality.
- Enhanced user experience with a sleek skeleton loading state during page loading.

Netflix Clone | [View Project](#) | [Github](#)

- Created a completely static Netflix clone with responsive carousel using **React JS and Tailwind CSS**.
- Fetched TMDB API data to generate dynamic content.
- Implemented diverse sections categorized by genres, each seamlessly fetching their own respective API data.

Movie Directory | [View Project](#) | [Github](#)

- Built a static **HTML, CSS, JavaScript and React**
- Integrated TMDB API to dynamically generate content, enhancing user experience.
- The application includes a search feature complemented by a hover effect displaying movie summaries and ratings.

Education

Frontend Developer Bootcamp

Frontend Simplified

May 2023 – Dec 2023

Technical Skills

[Html5 + Canvas + SVG, CSS + SASS + BEM, JavaScript ES6+, TypeScript, React, Next JS 14, Firebase, Git, Npm/Yarn, Webpack, ESLint, [Node, Redux]
